12:25 – 12:30	Q & A
12:30 – 13:30	Lunch break
13:30 Workshop: Aligning structure and elements that we see as crucial with respect of infra support <i>Moderator: Thierry Goger, FEHRL</i>	
<p>Starting point: The harmonization discussion with a common roadmap as a perspective initiated within ARCADE or CCAM Infra WGs on board.</p> <p>Aim: Going beyond and deliver a clear distinction between research and deployment activities (with a clear perspective on who should do exactly what or who should be responsible).</p> <p>Expected outputs:</p> <ul style="list-style-type: none"> – First collection as a kind of “repository” of elements to be tackled; – Prioritization of these elements; – Create a common perspective of actual problems/uncertainties; – Definition of a set of common actions & elements of Digital & physical Infra and the respective research needs/questions to be tackled. 	
16:00	End of the Meeting
